Professional Summary

Motivated B.Tech Computer Science Engineering student (Expected 2027) at Parul University with hands-on expertise in full-stack web development and applied machine learning. Proficient in the **MERN stack** (MongoDB, Express.js, React, Node.js), **Python**, and data science libraries including Pandas, NumPy, and Scikit-learn. Demonstrated ability to design and deploy end-to-end applications — from a predictive academic performance system to a role-based institutional management platform. Passionate about building scalable, data-driven solutions at the intersection of software engineering and artificial intelligence. Strong collaborator with a problem-first mindset and a commitment to continuous learning.

Education

B.Tech in Computer Science & Engineering

Jul 2023 – Present

Parul University, Vadodara

- CGPA: **7.38 / 10**
- Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems, Machine Learning, Computer Networks, Web Technologies

Higher Secondary Education (Science – PCM)

Mar 2021 – Mar 2023

Govt. S.S. School, Muzaffarpur

- Aggregate: **68%** (Bihar Board)

Projects

Student Performance Prediction System

March 2025 – Present

- Designed and implemented a supervised ML pipeline to predict student academic outcomes with **87% accuracy** using a dataset of **300+ student records** with 15+ features.
- Conducted comprehensive data preprocessing — handling missing values, feature encoding, and normalization — reducing data inconsistencies by **40%** to ensure model reliability.
- Trained, evaluated, and compared **4 algorithms** including Linear Regression and Decision Tree Classifier; applied cross-validation to mitigate overfitting and improve generalization by **12%**.
- Outcomes provide actionable insights enabling educators to identify at-risk students **up to 4 weeks** before final assessments.
- **Tech Stack:** Python, Pandas, NumPy, Scikit-learn, Matplotlib

HostelCare — Hostel Issue Management System

Sep 2025

- Architected and deployed a full-stack web application supporting **3 user roles** (hostlers, wardens, admins) across **3+ complaint categories**, handling **50+ concurrent users**.
- Engineered an automated complaint-routing module reducing average complaint assignment time from **24 hours to under 2 hours** — a **90% improvement** in response efficiency.
- Implemented real-time complaint status tracking, cutting unresolved complaint backlog by **60%** and improving resolution transparency across hostel management workflows.
- **Tech Stack:** Node.js, Express.js, MongoDB, React, JWT Authentication

Airbnb Clone — Full-Stack Rental Marketplace

2024

- Built a feature-rich accommodation listing platform replicating core Airbnb functionality including user authentication, property listings, search/filter, and booking management across **50+ mock listings**.
- Designed a RESTful API backend with secure session handling and integrated cloud-based image storage, reducing average image load time by **35%** via Cloudinary CDN optimization.
- **Tech Stack:** Node.js, Express.js, MongoDB, EJS, Cloudinary, Mapbox API

Skills

Programming Languages	Java, JavaScript (ES6+), Python
Web Frameworks & Libraries	React.js, Node.js, Express.js, EJS
Data Science & ML	Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
Databases	MySQL, MongoDB, PostgreSQL
DevOps & Tools	Git, GitHub, Docker, Postman
Cloud & Platforms	AWS (Cloud Foundations), IBM Watson Studio
Soft Skills	Collaboration, Technical Communication, Problem Solving

Certifications

AWS Academy Graduate — Cloud Foundations

AWS Academy

Sep 2025

- Gained foundational knowledge of AWS cloud services, infrastructure architecture, security best practices, IAM, S3, EC2, and cloud cost optimization strategies.

AI Fundamentals

Cisco Networking Academy & IBM SkillsBuild

Sep 2025

- Covered core AI/ML concepts: supervised & unsupervised learning, Natural Language Processing, Computer Vision, Neural Networks, AI Ethics, and hands-on experience with IBM Watson Studio.

Computer Networks and Internet Protocol — *Elite Certification*

NPTEL, IIT Kharagpur

Jan – Apr 2025

- Mastered TCP/IP protocol suite, network layer routing, congestion control, socket programming, and network security fundamentals; awarded **Elite** distinction.
